

Around The Town

C. W. Herndon returned this week from a business visit to the coast.

Mrs. Elsie Wildman, of Los Angeles, is visiting May Schneider of Kingman.

Don't forget the dance to be given by the Catholic ladies Feb. 28 at the Elks Hall.

Boyd and Alexander, of the Arizona Art and Ad Company, made a business trip to Flagstaff this week.

Mr. and Mrs. P. B. Newcomb are visiting Mr. and Mrs. W. A. Light, at the Truxton Canyon Indian School.

The infant girl of Mr. and Mrs. J. W. Brown passed away at the home of Mary Eleanor Cohesour, Friday evening, May 13.

Tim Walsh is now engineer for the California-Rand, Inc., at Randsburg, California. This company is shipping highgrade silver ore.

O. B. Stanton returned yesterday from a trip to Phoenix, where he attended to business connected with his mining interests in the Ray field.

Mr. and Mrs. R. W. Wilde departed for the coast this week. Mrs. Wilde will spend the summer there. Mr. Wilde will be back within a few days.

Miss Cunningham's junior domestic science class entertained the Mohave County Union High School Board at dinner last Thursday. A six course dinner was served.

Mrs. Blanche Field has taken the local agency for the Northwestern Mutual Life Insurance company. Mrs. Field is a hustler and should do well in her new business venture.

Carl L. Smith has succeeded N. W. Phelps as accountant for the Tarr,

McComb and Ware Commercial Company. It is understood that Mr. Phelps is planning upon going into business for himself.

Mr. and Mrs. Jack French of Chloride have been enjoying a visit from Mr. French's mother, who lives in Oakland, Cal. Mrs. French left last Friday evening for her home and was accompanied as far as Kingman by her son and family.

B. O. Selbach, of San Francisco, spent a few days here this week visiting Ed Shaw and other old friends. Mr. Selbach has been in the mining game for a good many years, having started at it in the Cripple Creek days.

Jo. Winchester returned this morning from the Texas oil fields where he looked after oil interests. Mr. Winchester and associates have some of the most important oil ground in the Lone Star state and it is expected that large royalties will soon be coming in from the wells.

Miss Florence Ashenfelter, who has been visiting with her cousin, Mrs. I. M. George, departed to her Philadelphia home a few days ago. Miss Ashenfelter was much taken with the picturesqueness of Arizona and we feel sure that she will feel the lure of the desert long after arriving in the big village.

Last Tuesday night the following Kingman young people attended a weenie roast at the Gun Club grounds: Mr. and Mrs. A. J. St. Charles, Mr. and Mrs. Bill Harris, Mr. and Mrs. L. B. Russell, Mr. and Mrs. A. H. Hawkins, Marian Primm, May Schneider, Mrs. Elsie Wildman, R. L. McMillan, W. K. McMillan, Frankie Schneider, Eugene Rushton and Vernon Hubbs.

"THE DESERT'S LONELY CALL"

By Kean St. Charles

This vale of San Fernando, is blossom decked today,
Surrounding hills are looming with their crest of rocky grey,
The peach trees are in glory, the walnut wide and tall,
But I listen for the music in the desert's lonely call.

This valley is so peaceful, not a hostile note is heard,
The music of the morning is the twitter of the birds,
And chimes from all the mission bell upon my senses fall,
But I listen for the music in the desert's lonely call.

The flowers here are beautiful, a vision to the eye,
The stars shine out so brightly from their orbit in the sky,
The moon is full in glory, and soft the dew-drops fall,
But I listen for the music in the desert's lonely call.

I love you California is wafted to my ears,
The days are full of sunshine, the nights so soft and clear,
The busy bees are humming in the clover fresh and tall,
But I listen for the music in the desert's lonely call.

For once a Hassayamper, a drinker from that stream
All other climes are second in the Arizona's dreams,
No matter where he wanders around this wordly ball,
He listens for the music in the desert's lonely call.

THE LOW COST OF ADVERTISING SPACE

Few advertising men know that advertising space in newspapers is by far the economical way to reach the consumer. It is a fact and the only reason that advertising was ever created was because wise and shrewd business men learned that they could buy white space in publications at a minimum cost and because of the message they would put into that space they could make a profit on the transaction and make the advertising a real investment in production of sales and good-will.

In these days of high cost of white paper and printing the advertiser could not print a full-page advertisement and buy the white paper at the small cost that the newspapers charges him for the complete page delivered into the home by invitation. That is to say, the readers of this newspaper buy a paper because they want to read it and because they know they get more for their money at 2 or 3 cents than anything else they could buy at that price. That is what makes the advertising so valuable to the advertiser, provided they have the right message, the right illustration and the right merchandising plan back of the advertising.

Newspaper advertising is by far the most economical method to reach the consumer.

WILLIAM H. RANKIN,
President, William H. Rankin Advertising Agency in Newspapers.

NOTICE

The American Legion wishes all Civil War veterans, Spanish-American war veterans or veterans of other wars to send their names in to O. W. Gildow, % Desert Power & Water Co., or to Roy Robinson, Miner Office, officers of the local post.

PRIVATE OWNERSHIP DOOMED.

That private ownership of railroads is doomed if rates continue to increase, is the prophesy of Daniel Willard, president of the Baltimore and Ohio, railroad. Mr. Willard sees no possibility of private owners ever again making the railroads of the country pay. The people demand service and to grant their demands the railroads will have to increase their trackage, more than double their rolling stock and better their entire equipment by at least \$5,000,000. During the war every interest was aligned against government ownership, but since the war the people are beginning to realize the disadvantage under which the government operated, but they agree that the co-ordination of the roads was the only thing that made their operation a success. During the 26 months of government control the railroads only really went in the hole for \$400,000,000, while the roads of the country have gone in the hole more than \$2,000,000,000 since they went back to private ownership. We do not believe in the paternal government, but we do believe that the government may operate railroads to better advantage than the interests now in control of them.

FIND AMETHYST MINE

W. S. McDaniels of Globe has made the discovery of an amethyst mine, near Roosevelt, that is said to be one of the most important finds of semiprecious stones in the country. He has already secured important orders for the gems and expects to do a thriving business when he gets the mines shaped up for active operation. The crystals are said to be of excellent coloring and bring good prices in the market. Many other places in the state have produced gems although many of them were rather off color. The best gems of amethyst that we have seen in the state came from the Burr Creek section of Mohave County, where exceptionally fine specimens were found in the stream. Just where the gems came from has not been ascertained, as there has been no attempt to mine that territory. The stones are dark and wonderfully brilliant and ought to pay well if quantity be developed.

On the Santa Maria a deposit of sapphires has been made that may have important value, the stones being pure white and containing considerable fire.

The Gates Rubber Co., Denver Colo.

Mr. Chas. C. Gates,

Dear Sir:

I am writing you in reference to your Super-Tread cord tires, which we used on our extended trip through the South, as they gave me wonderful service.

We left Denver Oct. 1, 1920 with three Gates' Super-Treads and three other tires and the other tires did not stand out half the way, and we could not get any adjustment so they were just thrown away. But on the other hand the Gates made the complete trip and I have the three tires yet running every day. We made approximately eleven thousand miles on this trip.

The load consisted of five passengers in a Dodge touring car, also complete camping outfit.

Our route was thus: Denver to Raton, to Dalhart, and then to Amarillo, Texas, and all over the southern part of the state. Through Louisiana, Mississippi, Alabama, Georgia and touching Jacksonville, Florida, then over the northern part of the states above mentioned to Tennessee, Arkansas, Oklahoma, Missouri and Kansas.

I can cheerfully recommend the Gates Cord tire to any automobile owner.

Res'p.
FRANK N. LYNCH.

Cancelled Checks

Nearly every day we are called on to produce cancelled checks which settled an account in dispute.

There's no use arguing against the evidence—the check, its amount and endorsement are final.

Isn't it strange that there are still some people who do not apply this insurance against double payment to their own personal affairs?

An account at the "CENTRAL" will save you time, loss and mistakes.

Sorbo

A Most Absorbent Sponge

AFTER fifteen years of tireless research work, a noted British Scientist perfected this wonderful Sponge, a LUXURY for your bath.

THE Sorbo Sponge is a triumph of British Scientific Invention; made of pure rubber, but holds water like a Sea Sponge. It has the same color and texture, but never tears.

NO other sponge has the tonic massage effect which makes the Sorbo Sponge so wonderfully beneficial to the skin and complexion.

Soap Improves It

YOU feel the difference the moment you start using a SORBO SPONGE. The very touch of it on your face or body is a pleasure. The more you use it, the better you like it.

Sorbo Has No Rival

YOU can leave it in water. You can boil it. It is an economical sponge to buy, as it will outwear four natural sponges and costs less than one.

Disinfectants Will Not Harm It

If it cost twice as much, it would still be the cheapest sponge made.

Prices \$.50 to \$3.50
